

ABOUT US

We're a young company working to transform how you experience the outdoors. From your backyard pond, to the city park, to a full weekend getaway, Oru Kayaks make paddling easier than ever.

FROM BOX TO BOAT IN 5 MINUTES

Oru Kayaks are made from a single, seamless sheet of double-layered, polypropylene. A patented pattern of folds transforms the flat sheet into a sleek, sturdy watercraft. Packed up, Oru Kayaks are the size of a large suitcase. In the water they're both fast and rugged, with terrific handling. Best of all, going from box to boat takes just a few minutes.

The tough abrasion-resistant skin is manufacturer-rated for 20,000 fold cycles. All plastics used in fittings and connections are durable, marine-grade, and UV-rated. All metal fasteners are marine-rated stainless steel. Oru Kayaks are made the USA and are fully recyclable.

AWARDS

SEEN ON

Oru Kayak Europe distributes to companies within the European Economic Area. For countries within the EU, intra-community acquisition of goods applies - import duties have been paid by Oru Kayak. For transactions in the EFTA, duties and VAT rates may apply. Oru Kayak Europe operates with a 3rd-party logistics company to deliver product from within the EEA.
