INTRODUCTION AND GENERAL FEATURES

The STREET BOULDER CONTEST is a climbing competition. The blocks to be climbed in the downtown area of San Donà di Piave (Venice - Italy) will be walls, columns, and other structures identified by the organization, with the permission of the owners of the buildings.

The climbing experience that is practiced is bouldering, or climbing without rope, with a maximum height of four meters: the potential falls are softened by special mattresses called crash pads and controlled by the security staff.

This regulation for the boulder or street boulder contest has been drawn up by the Adventure Outdoor Italia ASD for the event that will take place on September 7 or, in case of bad weather, on September 8 in San Donà di Piave (Ve).

The urban bouldering event will take place on short climbing lines, called blocks or problems, to be climbed without rope by placing the crash pad in order to avoid injuries or traces on house facades, stone walls, or artificial structures voted to the contest by the Organization.

SAFETY AND EQUIPMENT

All members will have to wear suitable climbing shoes. The STAFF in charge to check the boulder areas can at any time move away people who do not meet the safety requirements. It is mandatory to bring a Crash Pad or to share it with a group of climbers.

Participants will have to "spot" and "get up" each other in order to avoid injuries.

In exceptional circumstances, during the event, the Judge or the responsible of the climbing area may decide to close and cancel one or more blocks to preserve the athletes' safety or the integrity of the wall.

Anyone found climbing outside of the race tracks will automatically be disqualified and reported to the competent authorities.

Tutti gli iscritti dovranno avere scarpette adatte per la pratica dell'arrampicata sportiva.

I responsabili delle zone boulder potranno in qualsiasi momento allontanare le persone non munite dei requisiti di sicurezza.

It is, however, at the discretion of the organizers or the judge to remove or disqualify from the contest those who will endanger their own safety or that of the other participants.

THE CONTEST

Boulder areas are specified on the map and are available to participants and monitored by the organization's staff.

All blocks are marked by a numbered picture where the path is explained. The block will be considered valid, if the athlete starts with his hands on the start or sit-start and, after lifting his feet from the ground, he has to reach the top holding the position for at least three seconds.

FINALS

THE ACCESS TO THE FINAL SHALL BE DETERMINED BY THE SCORES ACHIEVED ON THE "JUDGE BLOCKS"; EVERY BLOCK HAS A VALUE OF 1000 SCORES, DIVIDED WITH THE NUMBER OF ATHLETES GETTING TO THE TOP.

THE FINALS ARE DIVIDED IN TWO CATEGORIES: MEN AND WOMEN WITHOUT AGE LIMITS FOR A MINIMUM OF 5 ATHLETES PER CATEGORY.

WHEN MORE PARTICIPANTS GAIN IN THE FINAL, A NEW BLOCK WILL BE TRACKED FOR THE PLAYOFF.

The Street Art Boulder Contest is born with the purpose of "coloring" the streets of the town with an unusual climbing way, for genuine fun and the competition is pushed into the background.
